OFFICIAL PAPER OF THE CITY.

Janesville Daily Gazette.

VOLUME 8.

JANESVILLE, WIS., WEDNESDAY, NOV. 9, 1864.

NUMBER 216.

This Weekly Gazette is now the largest paper published in the State, and having the most complete and reliable news from all quarters, it is a necessity to every citizen who wishes to be kept posted on the latest news from all quarters, in literary, moral and political information relating to this city and county, we shall spare no pains to make the Weekly Gazette worthy of public patronage and support.

The Result.

The heavy rain storm that has prevailed for the last thirty-six hours, has rendered the telegraph wires too sluggish to present as full details as we had hoped, but sufficient returns have been received from various parts of the country to warrant us in saying that ABRAHAM LINCOLN WAS RE-ELECTED PRESIDENT OF THE UNITED STATES FOR FOUR YEARS MORE!!

"Thanks be to God who giveth us the victory." We are too full for utterance, and can only congratulate our readers upon the glorious result, and thank every loyal man and loyal woman who has contributed to the success of the Union cause. This is no mere party triumph; but it is the potent voice of THE PEOPLE, versus the rascally machinations and intrigues of the enemies of popular liberty who are seeking to overthrow the only government founded upon equal rights. Honor then to men of every party who have magnanimously cast aside old party ties and associations, and generously come up to the help of the Lord against the mighty.

We cannot forget that there are those who will hang their harps (made of copper) upon the willows to day, and sigh for that victory that can return to them no more. All such will find no sympathy in this great verdict of the people against them and the cause they have espoused. They cannot too speedily repent and turn from the error of their ways. The verdict of yesterday means that treason must be punished—that rebellion must be put down—that the soldiers must be sustained—that Liberty, Equality, and Justice must prevail—that the integrity of the country must be preserved, and that Abraham Lincoln's authority as president, must be acknowledged in South Carolina as it is in Wisconsin.

The Result in Wisconsin.

The Union majority in the State cannot be less than 15,000 on the home vote, and we are still sanguine that we have elected five out of the six Congressmen, although it looks uncomfortably close for General Paine in the First District. We hope to be able to positively state that Paine is elected to-morrow.

How are You, George B. Smith

Does any body know of a man by the name of George B. Smith—the B. standing for brass? Such a fellow threatened to run for Congress in this district, but as near as we can learn, he did not run much. Any information as to his whereabouts will be liberally rewarded by his few friends in this city.

THANKS.—We are indebted to many of our country friends, Town Clerks and others who have taken pains to send us returns from their respective towns, and in many instances, came themselves through the mud and rain to bring them. Without particularizing, we take this method of thanking all these gentlemen in a body for their kindness.

This statement is attributed to Mr. Whiting, Solicitor of the War Department, that, up to October 1st, 120,000 troops had been raised under the last call; and it was reported from high quarters that, when all the arrangements under the call had been filled, all the men needed for the war would be supplied. From May 9th to the middle of October, 13,500 naval recruits were received.

PENNSYLVANIA has 2542 miles of railway, which have cost \$143,471,710. The canals are 1,047 miles in length, costing \$3,811,807. The real and personal estate in 1860 amounted to \$1,415,501,888. The State debt November 20th, 1863, was \$39,480,596, showing a decrease from the preceding year of \$815,617.

The Bath (Me.) Sentinel states that within less than two years, no less than thirty Bath ships, amounting in value, to over \$1,900,000 in our currency, have been sold in England. Besides this, there have been a great many sales in ports of other nations, and also at home.

The exports of gold from New York last week were \$2,375,000. This is the secret of the advance in the price. The cause of the heavy outward movement is the financial crisis in England. The advances show that the pressure has not yet culminated. The failures, however, are confined to third rate houses.

A NUMBER of the citizens of New York, desirous of enhancing the Thanksgiving comforts of the Union soldiers before Petersburg and Richmond, have started a movement to send one thousand barrels of apples to the front.

MORE than 70,000 trees, shrubs and herbaceous plants were planted in the New York Central Park last year. The carriage-drive now completed is about eighty miles in length, and walks, twenty miles.

The largest lake in the world is Lake Superior, which is truly an infant sea, being four hundred and thirty miles long.

Green County.

Glorious little Green is always right. We are indebted to ex-senator Stewart, of Monroe, for the returns from nine towns in Green County, published below. Mr. Stewart says the election passed off very quietly, and that the Union ticket will have at least 1,000 majority in that County on the home vote.

THE more it is investigated, the more atrocious and widely ramified does the New York vote stuffing fraud appear. From the Mississippi squadron, we learn that alien and Western sailors were induced to vote, through the misrepresentation of Seymour's commissioner, none but Democratic ballots being provided; while for want of the proper votes, and by various pretenses, loyal New York sailors had no opportunity of exercising the right of suffrage. Marvin Jones, one of North's assistants at Washington, has made a full confession. It is significant that he obtained his position through Gov. Seymour's brother, Captain Ottenot, 179th New York regiment, who signed blank envelopes, has also been arrested and likewise confesses his guilt. Lieut. Col. Murphy, 7th N. Y. artillery, who had been arrested, has been released, he having shown that his name was forged on envelopes by the rascals, who, not satisfied with using living men's names for their infamous purposes, copied those of dead soldiers from the casualty lists in newspapers, and made up their purported votes for McClellan.

LAST NIGHT.—Lapin's Hall was the scene of a gay old time last night. In spite of the pelting rain, a large audience filled it at an early hour to hear the news from election returns which were brought in every few minutes. The order of exercises were rich and varied. First, some one would make a short speech; then a song would be sung by the glee club; then the dispatches would be read, then another song, or a speech, or a story. It was a good place for a Union man, but a mighty poor place for a copperhead. The meeting adjourned about 2 o'clock this morning, after receiving news enough to warrant them in believing that Abe and Andy were elected.

Among the most remarkable of the prizes captured by the North Atlantic blockading fleet, is the beautiful paddle wheel steamer *Lady Sterling*, taken on the 28th ult., as she made her first trip out of Wilmington. She had 930 bales of cotton on board. The vessel and cargo are valued at \$800,000.

JAMES CONN, one of General Howard's secret scouts, who was captured by the enemy at the commencement of the campaign, has just returned to camp after a long and severe confinement in rebel prisons. He was to have been hung on the Friday after his escape.

THE DIFFICULTY in all of Gen. McClellan's military operations and inoperativeness was that he never had men enough. He will make the same excuse for failure to-day. He had not men enough yesterday. That's what the matter!

ON DIT.—That Rev. E. J. Goodspeed, of this city is to accept a call from one of the largest churches in Chicago. Hope it is not true, as we should be sorry to have him leave Janesville.

PROF. SILLIMAN, Jr. of Yale College, is giving scientific lectures in the mining regions at the Northwest.

THE REBEL DEBT.—Mr. Trenholm, the rebel Secretary of the Treasury, represents the funded and unfunded debt of the Confederacy, on the 1st of July last, at \$1,250,000,000. The expenses from the 1st of July to the 31st of December are estimated at about \$325,000,000, making an aggregate of \$1,575,000,000. The annual interest on this debt is over \$100,000,000. As the present population of the States in rebellion does not probably amount to over eight millions of persons, the tax on each man, woman and child, white and black, to pay this interest, will be \$12.40. The ability of the impoverished South to meet the expense may be inferred from the fact that commerce and trade are paralyzed, and that such is the state of the currency that as Mr. Trenholm indirectly confesses, fifteen thousand in gold is equivalent in Richmond to three hundred thousand dollars in currency.

DEPTH OF COAL BEDS.—Heath's mine in Virginia is represented to contain a coal bed fifty feet in thickness. A coal bed near Wilkesbarre, Penn., is said to be twenty-five feet thick; at Mauch Chunk is a coal bed 40 to 50 feet deep; and in the basin of the Schuylkill are fifty alternate seams of coal, 25 of which are more than three feet in thickness. In Nova Scotia is a coal formation 1,400 feet deep, and containing 75 alternate layers of coal. The Whitehaven coal mine, in England, has been worked 1,200 feet deep, and extends a mile under the sea; and the Newcastle mine, in the same country, has been worked to the depth of 1,500 feet, and bored to a similar additional depth, without finding the bottom of the coal measure.—*Miner's Journal*.

At Mayville, Kansas, the other day, a drunken fellow named Griskey had a quarrel with Henry Ayle, and Patrick Casey undertook to separate them. The result was that Casey was killed by Griskey's pistol, and Griskey was immediately hung to a tree.

L. P. Barrett, the actor, recently rode forty-five miles in a hand-car in order to reach Cincinnati in time to fulfill an engagement.

A Hidden Treasure.

The Emperor Maximilian, says a German journal, has a chance of digging out a hidden treasure. The highly romantic story is as follows: When Napoleon I. de-throned the Bourbons in Spain, the Mexicans (whose eyes had been opened by Humboldt to the fact that they were a nation of seven millions, subdued by eighty thousand Spaniards,) became encouraged and threw off the Spanish yoke. The Vice King sent during the revolution, four millions of gold pieces, together with other numerous treasures to Madrid. This happened in June, 1808. The escort was attacked by one hundred men, and massacred, save one cavalry officer and a few of his men, who acted in concert with the robbers. To avoid the vigilance of the government, the bandits concluded to hide the treasure in the ground, and to divide it after the expiration of one year.

At the foot of a precipice one thousand feet high, of a hollow deep in the mountain was a cave. There the treasure was dragged, the cave walled up by the rocks, the interstices with earth and plants, and finally a little brook was directed so as to pass like a cataract, over the place. Now the robbers spread out the rumor that the whole story of the robbery was invented by the Vice King himself, and that he had brought the treasures in safety. The so accused was called to account. But the robbers did not enjoy their treasure, for before the expiration of the year they killed each other among themselves or were defeated. A German traveler named Muller, celebrated by his climbing the Pico of Orizaba, learned the secret from the lips of an aged, dying Indian. The Imperial Government, to whom the place has been pointed out by Muller, is now about to search for the treasure, as the historical facts seem to justify the truth of the story.

THE EMB AND FLOW OF BEAUTY.—Beauty makes its own fashions when it comes; and we must remember that it is not once a beauty, always a beauty. People are continually being disappointed in children in this respect, cherubs grow up into ogres, months disappear most potently when about fourteen years old; dimples about that time often vanish, and noses lengthen or crook or even snail. And it is fortunately the other way, too—that faces ugly in the cradle may quite change by twenty. Some people's beauty comes very late indeed, and those who have been repugnant in youth and maturity, may look splendid in old age. Gray hairs and white beards become some folks wonderfully; a few wrinkles also improve some faces, and one old lady of our acquaintance we never dreamed was beautiful until we saw her in spectacles.—*Victoria Magazine*.

Another of the St. Albans raiders was arrested at Waterloo, C. E., on Monday. He was just getting into a wagon at a livery stable, when, seeing an officer approaching, he made for the barn, threatening to shoot any one coming near him. The officer, undaunted, made for him, the rascal making good his words by shooting the officer through the shoulder, though not dangerously. The ostler, seeing how matters stood, picked up a brick and knocked down the "Confederate gentleman," who was then immediately secured. Two thousand dollars in bills on the Franklin county Bank of St. Albans were found in his possession.

PROGRESS.—The Atlantic and Great Western Branch Railway between Franklin and old City, may be anticipated at an early day. A large force is at work, and the road is being pushed rapidly. The Philadelphia and Erie Railroad is giving the Atlantic and Great Western a new outlet to New York, via the Quakake, Beaver Meadow, Lohigh Valley and Jersey Central routes. The latter now has a third rail for a six foot track, and the gauge will be extended over the entire route.

DEATH OF D. MALLO.—We are pained to hear of the death of D. Mallo of the Columbus Journal which occurred at Columbus on Sunday evening last, in consequence of injuries received from falling down his office stairs. Mr. Mallo had for many years been connected with the press and was well known among all the old printers of the State.

UP THEY GO.—The managers of the Illinois Central have raised their charges for passenger fare from Cairo to St. Louis and Chicago. To the former city, it is now \$6.25, which was the old tariff; to the latter city it is now \$15.00, formerly \$11.75. Their freight prices have also been raised in a corresponding ratio.—*Cairo War Eagle*.

A HUNGARIAN boy, living in Austria, just fourteen years old, has been tried, convicted and sentenced to five years' imprisonment. His only crime (!) was in carrying about his person a book in which was written some passionate expression of hatred for the Emperor.

THE importance of a comma was well illustrated by a return, received by the parish authorities of a Christian District, from their Chief Constable. The document announced the dismissal of a police officer, "for attempting to marry his wife, being alive."

The canine returns for the State of Vermont show that there are twelve thousand dogs among the Green Mountains. If there was a tide of them there would probably be fifty thousand more sheep.

MARRIED.—By Rev. E. J. Goodspeed, Nov. 7th, CHAS. MAY, NARD and MISS PORTHENA LAWSON. Also by the same Nov. 8th, at the residence of the bride's father, R. H. ROULLE and Miss LUCY M. JACKMAN.

Marvin Jones, one of North's assistants at Washington, has made a full confession. It is significant that he obtained his position through Gov. Seymour's brother, Captain Ottenot, 179th New York regiment, who signed blank envelopes, has also been arrested and likewise confesses his guilt. Lieut. Col. Murphy, 7th N. Y. artillery, who had been arrested, has been released, he having shown that his name was forged on envelopes by the rascals, who, not satisfied with using living men's names for their infamous purposes, copied those of dead soldiers from the casualty lists in newspapers, and made up their purported votes for McClellan.

LAST NIGHT—Lappin's Hall was the scene of a gay old time last night. In spite of the pelting rain, a large audience filled it at an early hour to hear the news from election returns which were brought in every few minutes. The order of exercises were rich and varied. First, some one would make a short spicyspeech; then a song would be sung by the glee club; then the dispatches would be read; then another song, or a speech, or a story. It was a good place for a Union man, but a mighty poor place for a copperhead.

Among the most remarkable of the prizes captured by the North Atlantic blockading fleet, is the beautiful paddle wheel steamer *Lady Sterling*, taken on the 23rd ult., as she made her first trip out of Wilmington. She had 980 barrels of cotton on board. The vessel and cargo are valued at \$800,000.

JAMES COBB, one of General Howard's secret scouts, who was captured by the enemy at the commencement of the campaign, has just returned to camp after a long and severe confinement in rebel prisons. He was to have been hung on the Friday after his escape.

THE DIFFICULTY in all of Gen. McClellan's military operations and inopportunities was that he never had men enough. He will make the same excuse for failure to day. He had not men enough yesterday. That's what the matter.

ON DIR.—That Rev. E. J. Goodspeed, of this city is to accept a call from one of the largest churches in Chicago. Hope it is not true, as we should be sorry to have him leave Janesville.

PROF. SILLIMAN, Jr. of Yale College, is giving scientific lectures in the mining regions at the Northwest.

THE REBEL DEBT.—Mr. Trenholm, the rebel Secretary of the Treasury, represents the funded and unfunded debt of the Confederacy, on the 1st of July last, at \$250,000,000. The expenses from the 1st of July to the 1st of December are estimated at about \$32,000,000, making an aggregate of \$1,875,000,000. The annual interest on the debt is over \$100,000,000. As the present population of the States in rebellion does not probably amount to over eight millions of persons, the tax on each man, woman and child, white and black, to pay this interest, will be \$12.40. The ability of the impoverished South to meet the expense may be inferred from the fact that commerce and trade are paralyzed, and that such is the state of the currency that as Mr. Trenholm indirectly confesses, fifteen thousand in gold is equivalent in Richmond to three hundred thousand dollars in currency.

DEPTH OF COAL BEDS.—Heath's mine in Virginia is represented to contain a coal bed fifty feet in thickness. A coal bed near Wilkesboro, Penn., is said to be twenty-five feet thick; at Mauch Chunk is a coal bed 40 to 50 feet deep; and in the basin of the Schuylkill are fifty alternating seams of coal, 25 of which are more than three feet in thickness. In Nova Scotia is a coal formation 1,400 feet deep, and containing 75 alternate layers of coal. The Whitehaven coal mine, in England, has been worked 1,200 feet deep, and extends a mile under the sea; and the Newcastle coal mine, in the same country, has been worked to the depth of 1,300 feet, and bored to a similar additional depth, without finding the bottom of the coal measure.—*Monr's Journal.*

AT Maysville, Kansas, the other day, a drunken fellow named Patrick Casey quarrelled with Henry Ayle, and Patrick Casey undertook to separate them. The result was that Casey was killed by Grisey's pistol, and Grisey was immediately hung to a tree.

L. P. Barrett, the actor, recently rode forty-five miles in a hand-car in order to reach Cincinnati in time to fulfill an engagement.

A Hidden Treasure.

The Emperor Maximilian, says a German journal, has a chance of digging out a hidden treasure. The highly romantic story is as follows: When Napoleon I. de-throned the Bourbons in Spain, the Mexicans (whose eyes had been opened by Humboldt to the fact that they were a nation of seven millions, subdued by eighty thousand Spaniards), became encouraged and threw of the Spanish yoke. The Vice King sent during the revolution, four millions of gold pieces, together with other numerous treasures to Madrid. This happened in June, 1808. The escort was attacked by one hundred men, and massacred, save one cavalry officer and a few of his men, who acted in concert with the robbers. To avoid the vigilance of the government, the bandits concluded to hide the treasure in the ground, and to divide it after the expiration of one year.

At the foot of a precipice one thousand feet high, of a hollow deep in the mountain was a cave. Thro the treasure was dragged, the cave filled up by the rocks, the jaggedness with earth and plants, and finally a little brook was directed so as to pass like a catwalk, over the place. Now the robbers spread out the rumor that the whole story of the robbery was invented by the Vice King himself, and that he had brought the treasures in safety. The so-called was called to account. But the robbers did not enjoy their treasure, for before the expiration of the year they killed each other among themselves or were detached other named Muller, funet. A German traveler named Muller, celebrated by his climbing the lips of zaba, learned the secret from the lips of an aged, dying Indian. The Imperial Government, to whom the place has been pointed out by Muller, is now about to search for the treasure, as the historical facts seem to justify the truth of the story.

THE EBB AND FLOW OF BEAUTY.—Beauty makes its own fashions when it comes; and we must remember that it is not once a beauty, always a beauty. People are continually being disappointed in children in this respect; cherubs grow up into ogres, mouths widest most portentously when about fourteen years old; dimples about that time often vanish, and noses lengthen or crook or even snub. And it is fortunately the other way, too—that faces which in the cradle may quite change, by twenty. Some people's beauty comes very late indeed, and those who have been repugnant in youth and maturity, may look splendid in old age. Gray hairs and white beards become some folks wonderfully; a few wrinkles also improve some faces, and one old lady of our acquaintance we never dreamed was beautiful until we saw her in spectacles.—*Victoria Magazine.*

Another of the St. Albans raiders was arrested at Waterloo, C. E., on Monday. He was just getting into a wagon at a livery stable, when, seeing an officer approaching, he made for the barn, threatening to shoot any one coming near him. The officer, undaunted, made for him, the rascal making good his words by shooting the officer through the shoulder, though not dangerously. The ostler, seeing how matters stood, picked up a brick and knocked down the "Confederate gentle man," who was then immediately secured. Two thousand dollars in bills on the Franklin County Bank of St. Albans were found in his possession.

PROGRESS.—The Atlantic and Great Western Branch Railway between Franklin and Oil City, may be anticipated at an early day. A large force is at work, and the road is being pushed rapidly. The Philadelphia and Erie Railroad is giving the Atlantic and Great Western a new outlet to New York, via the Quakake, Beaver Meadow, Lehigh Valley and Jersey Central roads. The latter now has a third rail for a six foot track, and the gauge will be extended over the entire route.

DEATH OF D. MALLO.—We are pained by the death of D. Mallo, of the Columbus Journal which occurred at Columbus on Sunday evening last, in consequence of a fall received from falling down his office stairs. Mr. Mallo had for many years been connected with the press and was well known among all the old printers of the State.

UP THEY GO.—The managers of the Illinois Central have raised their charges for passenger fare from Cairo to St. Louis and Chicago. To the former city, it is now \$6.25, which was the old tariff; to the latter city it is now \$15.00, formerly \$11.75. Their freight prices have also been raised in a corresponding ratio.—*Cairo War Eagle.*

A HUNGARIAN boy, living in Austria, just fourteen years old, has been tried, convicted and sentenced to five years' imprisonment. His only crime (it was in carrying about his person a book in which was written some passionate expression of hatred for the Emperor.

THE importance of a comma was well illustrated by a return, received by the parish authorities of a Christiana District, from their Chief Constable. The document announced the dismissal of a police officer, "for attempting to marry his wife, being alive."

The canine returns for the State of Vermont show that there are twelve thousand dogs among the Green Mountains. If there was a tithe of them there would probably be fifty thousand more sheep.
